Find the idea that connects the words

ANCHOR CHART

struct = build

To **construct** a shelter is to build it. A **structure** is something built. These words share a root and an idea.

1. Find the part

Point to the prefix, root, or ending. Say what it means or does.

2. Explain the word

Use the part to explain the whole word. Say your thinking aloud.

3. Try a related word

Find a word with the same part. Explain what the two words share.

Teacher prompt What does the word part help you figure out?

Teaching routine and research

Sort, explain, and try

Name _____ Date _____

1. Sort the words

Write each word under the group it fits.

construct geology structure geography

Building	Earth

2. Explain one group

What do the words in this group have in common?

3. Try another word

The **construction** of the footbridge took three weeks.

Circle the root in **construction**.

What is happening to the footbridge? Use the root in your explanation.

Word parts in context

Teacher key Building: construct and structure. Earth: geology and geography. Construction is the process of building.
